8	9	1	0	2
40%	45%	5%	0	10%

7. What do you think is distinctive about Grace Cook Primary School and Nursery. Please try to capture this in a few words.

Friendly, personal feel. All teachers know who parents are etc
I believe that because it's small classes the children can get a better learning experience.
Strives the children to be themselves
The passion of teaching and the love of reading.
the team is enthusiastic and motivated to give the best for the children
Faculties and opportunities
school expectations are very high
Small friendly team focus on pupils
It's like a little community. All the children know each other. Our son feels very supported and happy.
High quality education and lovely new building/resources
We get told that other primary schools in area don't receive homework for the children, and homework is fun for them so is nothing but credit to your learning.
Getting the most out of the pupils. Nurturing areas of interest.
I feel more involved with the school, with the amount that is put through on dojo. Previous school, there was no communication, and tapestry ended after reception. So love this about Gracecook.
Nurturing environment and staff, a real community feel.
Teaching is very individualised to each child's ability.

8. I would recommend this school to another parent

Yes	No

9. Positive comments even better ifs.....

Grace cook primary has been a very positive experience for me and my child We feel included and like our child has built up a relationship with pupils and teachers. They are listened to and pushed to their full potential. I am grateful for everything that Grace cook has done for my child!

I am personally very happy, my kids are doing well and happy too, so far very good

Grace cook is a great school, striving for the best for the children. I think communication regarding children and how well they are doing could improve. This could just be a message on dojo with just a update on there. Coming from a nursery where you always get an update to school where we don't get anything it's abit odd! But this maybe the transition. But from our learnings so far... children forget what they have done that day and don't want to tell us what they have done.

We love Grace cook! We love that it is at the moment a small school and you can see the teachers all know the children so well. We are so happy with how our child is getting in and how far she has come. Thank you so much.

I like the school as well as my child, but I would like to find more entertainment for the children, learning is extremely important and I am grateful to all the teachers for the huge efforts they make to bring out the best that our children are capable of, but it will be nice if they also have any activities like after school dance club, sports, legos, cooking etc. It would also be nice if there were more social events involving us parents along with the school team and children. And finally, it would be nice to quickly build a playground in the school yard with various facilities so that the children can relax as much as possible when they have a break and are outside in the fresh air. Thanks

Very gdgd very helpful very respectful

It's a great school, great communication, think children need strict and boundaries, lunch menu is fab lots of options.

Not the right box but there is no where else to comment. The amount of hand washing is unbelievably excessive! Calm it down please.

It's a great school, we are very pleased with everything. It would be nice if there was a stage for children to perform as when they had the nativity play it was difficult to see everyone as the children were on the same level as the audience. Maybe we could raise some money if needed to build a stage, if at all possible and the space allows it.

No negative comments about the school, but the Arbor app iOS is terrible and certainly not worth the money you are investing in it! I think an alternative should be sourced.

My child is always happy and looking forward to going into school, and that says everything to me about Gracecook. Going to the zoo before christmas was such a nice trip for the kids to have. The

Christmas play was lovely to watch. All the children seem like one big family, which is lovely to see . It would be nice in the future to have some school clubs for the children to attend, believe this would be something the children would really enjoy.

We think it's just great - the staff are so friendly as caring and our little one is always so excited about 'school' days and he has made lots of friends.

Very impressed, my child has improved in all areas since starting. Staff appear to be very aware of each child's needs and will adapt learning to support areas where extra help is needed. My child loves coming to school and I am very happy with their progression and very pleased with the school and the communication involved.
